

Risk Placement Services, Inc.

Knowledge. Relationships.
Trust and Confidence.

Public Entity

Our experience in providing municipalities, schools, states, non-profits, and others with exclusive package facilities with A-rated or better carriers spans more than 40 years. We understand the unique risks Public Entities face - from terrorist threats to civil rights exposures and police misconduct; to employment practices and data breaches; to budget limitations; and the scrutiny of public officials, educators, and executives in a variety of complicated and frequently highly charged situations. We provide the broad coverage, underwriting expertise, and risk management resources needed to address these exposures.

RPS' in-house underwriting capability will provide you with quick turnaround - critical in writing new accounts and client retention. We also provide an extensive list of pre-approved third-party administrators (TPAs) to facilitate the control and management of claims for your insureds. Each TPA's flexible, cost-effective products are tailored to satisfy specific client needs. Their prompt, responsive services are aimed at achieving early claims resolution while maximizing savings on expenses and loss payout.

Our Appetite

Our experienced staff provides tailored Public Entity packages to the following sectors:

- Cities & Counties
- Public & Private Schools
- Higher Education
