CAUTION – Individual components may themselves total more than the cost of a complete balloon system. Insure each component adequately to cover the value of that component. Gondola means basket, burners, tanks, instruments, and other integral components of the flight system as supplied by the manufacturer. Envelope means the fabric, suspension system, pyrometer, and custom artwork, but excluding temporary banners attached to the envelope. Accessories means items such as radios inflation fans, temporary banners, drop lines and other items incidental to flight, but not supplied with the balloon by the manufacturer.

I warrant the truth of the above statements, and that no material information has been withheld.
